

Flexible Dies

FlexPremier®

AccuFlex®

RotoMetrics Flexible Dies offer best-in-the-industry results, thanks to our newly enhanced, state-of-the-art manufacturing processes, plus a wide range of dies that provide proven solutions to every converting challenge. What's more, every RotoMetrics Flexible Die we make takes advantage of our class-leading advances in machine sharpening technology to provide you with the best results, no matter the materials or application.

RotoMetrics Flexible Dies feature:

- Fast production and delivery times – often same day/next day service
- Unbeatable performance when paired with RotoMetrics high tolerance magnetic cylinders
- Thorough quality assurance tests that ensure consistent, dependable, long-lasting results

AccuFlex® Flexible Dies

- Provide best-in-class performance when converting materials on thin film liners and other challenging materials
- Feature more acute blade angles, razor sharp/high precision cutting edges, extreme precision and total plate height tolerance of +/- .0001" (2.50 microns)
- Wide format plate sizes up to 38" x 29" (970mm x 740mm)

FlexPremier® Flexible Dies

- Engineered with a chrome deposition surface treatment .0003" (7.50 microns) thick that provides dramatically longer die life – a million or more revolutions, outlasting or equaling any flexible die on the market
- Give consistently better cutting results for the most abrasive applications, such as thermal transfer materials and computer imprintable films
- Offer the same fast delivery times as our standard flexible dies

FlexPlus Flexible Dies

- Designed to provide longer life and greater durability than standard flexible dies, thanks to RotoMetrics' proprietary life-enhancing surface treatment
- Reduce downtime due to fewer flexible die changeovers

For more information about RotoMetrics Flexible Dies and our complete line of rotary tooling, or for answers to your technical questions, contact your RotoMetrics sales representative.
